### California Library Literacy Services – Due January 31, 2023

CLLS mid-year report and pre-application for 2023/2024 should open in early January 2023 and will be due on January 31. The brief mid-year report checks on spending progress and the pre-application asks that library state their intentions for applying for 2023-2024 funds. In addition, the final round of ESL applications for new participants will open in early 2023 for funding that starts July 1, 2023. Returning ESL programs will fill out a continuing application in February/March 2023. The due dates for new and returning ESL applications will be March 15, 2023. State of CA funded.

For CLLS and Literacy Initiatives questions, please contact us at [clls@library.ca.gov](mailto:clls@library.ca.gov).

The 2023 funding opportunity for [Lunch at the Library](#) is now open! This state-funded program is for all California public libraries that support summer meal service for children and youth. Libraries can take part by serving meals at the library or taking pop-up libraries to local community meal sites, or both!

Additional Lunch at the Library project opportunities to support Farm to Summer activities, to help libraries create a local summer meal network or coalition, and/or to implement innovative and larger-scale efforts to connect more children, teens, and families to summer meals are also available. For more information about the project, including information sessions offered and how to apply, please visit [our website](#). State of CA funded.

### California Library Connect – Rolling Due Date

The [California Library Connect Program](#) is now accepting applications. Libraries may apply for grants to cover eligible IT/network infrastructure equipment and expenses, as well as the first-year costs of upgrading or installing a new high speed Internet circuit. This program also supports California public libraries by connecting them to high-speed internet through the California Research and Education Network (CalREN) — a high-capacity public-sector broadband network. We have also launched the California Collaborative Connectivity Grant, a separate grant opportunity that provides gap funding for libraries and partner anchor institutions to construct broadband circuits to connect underserved communities. State of CA funded.

The CLC team will host a [webinar](#) on [January 11<sup>th</sup>](#) at [11:30 AM](#) for libraries interested in learning more about collaborating with local anchor institutions to leverage funding available via the California Collaborative Connectivity Grant. If you are able to attend, please register [here](#). A recording of the webinar will be posted to the CLC [website](#).
