We tend to be one upgrade behind the Koha Community with Bywater providing point updates in between upgrades. We are currently on Koha 25.05.07 and anticipate upgrading to Koha 25.11.0 in May.
 - i) **Adding Hyperholds to Koha** - A new feature in 25.11 that allows a staff member or patron to place a hold on the first available item from a group of titles on the staff interface or OPAC. Bug 15516 - Allow to place a hold on first available item from a group of titles
 - ii) **Filter Search Results** - An enhancement that adds a new system preference: FilterSearchResultsByLoggedInBranch. When libraries enable this feature, it will allow librarians to filter search results to only show those belonging to the logged in branch on the staff interface.
