7. OLD BUSINESS

- a. ILS Aspen Discovery Plan JC (SB) reported that Santa Barbara has currently paused its migration plans to a separate ILS until possibly 07/2022. They have approval from their library board and city council but feel more work is needed with their regional partners to facilitate a smooth transition.
 - GF(BG) reported that she is communicating with a library cooperative based in New Jersey who is in the process of adding the Aspen overlay to their current Polaris set-up. The cooperative is comparable to Black Gold in size and scope (they have 49 libraries) and are looking to begin the process in March. GF is in the process of contacting Jessie at Bywater to start the discovery process and will send out updates to the directors as they occur.
- b. $\mathcal{M}-$ No one is ready to resume normal delivery/sharing currently. A motion was made to adjust the delivery schedule to every three weeks until further notice.

(AF/JC) Approved

8. **NEW BUSINESS**

a. **2021-22 Tentative Budget – GF (BG) reviewed the tentative budget to give directors an idea of what the upcoming FY 2021-22 might look like in terms of expenses and revenue. Some notable changes included moving Cybrarian into reimbursables in the contribution formula as many libraries are moving away from the product. We also cut admin expenses, strategic planning expenses and have the option of discussing potential cuts to rent/office costs. We will receive revenue from the Shared Vision grant for our part as fiscal partner in the coming year. CLSA funds look to be 50% less than previous years. 2nd year service contract fees for Aspen will need to be added. A 2% COLA is part of the budget, there has been no COLA raises for staff for the past 2 years and the recent salary survey showed most staff are making less than market rate. RB Digital has moved

- to Overdrive, there is an increase of cost by \$15,000 however there may be tiered options offered by our renewal date in November. We also have the option of looking for another magazine vendor. The preliminary budget should be ready for review in March.
- M-*June 30, Audit Report Review & Approval (includes internal controls report)
 (AG/DJ) Approved
- M-Schedule February Administrative Council Meeting for Friday, February 19, 2021
 (AF/CB) Approved
- 9. BLACK GOLD OPERATIONS DIRECTOR REPORT GF(BG) reported that RB Digital is moving to Overdrive. The banner will be moved to the Overdrive site. We anticipate better stats being available of circulation and usage. T-Mobile has partnered with WebTitan to provide a DNS block to hotspot devices with CIPA compliant protocols. We have not had them before and as a result, hotspots are not able to access sites like Netflix and Hulu. It was agreed that each of the libraries already have CIPA rules in place and there is no need to add an additional filter to our devices.
 - GF(BG) reported that in the early hours of January 4th, a man entered the SLO Data Center and unplugged all of the drives to our production servers as well as other acts of vandalism. He was apprehended later in the day. According to SLOPD there seems to be some mental health issues involved and it didn't appear that the individual was targeting Black Gold or our data. As a result, the BG catalog was down for three days while replacement drives were ordered, installed and data restored. We are currently in contact with the insurance company and our attorneys to gauge the level of exposure we might have. Our insurance deductible is \$10,000 and costs to replace drives is less than that. The incident has brought up the question as to whether we need to store driver license numbers in the system. It is not consistent information entered by every jurisdiction and is an area of potential threat to patron data. GF (BG) will keep directors informed of the final recommendations provided by the attorneys and their cybersecurity unit.
- 10. OPPORTUNITIES FOR COLLABORATION/NEW SERVICES JC (SB) stated that SB is working to promote its Library on the Go program. CB (SLO) asked about raising the hold limits from 10 to 15. Many patrons have holds for items in other jurisdictions that are unavailable due to the stoppage of sharing materials. He would like to increase the numbers of holds to accommodate patrons until material sharing resumes. It was agreed to add it to the February agenda to be voted on by the Cooperative.
- 11. ROUNDTABLE N/A
- 12. M ADJOURNMENT at 11:24 am. (CB/JC) Approved

THESE FINANCIAL STATEMENTS APPROVED BY THE ADMINISTRATIVE COUNCIL OF THE BLACK GOLD COOPERATIVE LIBRARY SYSTEM

Ned Branch, Chair, FY 2020-2021

163

Black Gold Cooperative Library System Statement of Revenues and Expenditures For the Five Months Ended November 30, 2020 Fiscal Year Elapsed: 42%

From time to time, Black Gold staff orders supplies and equipment directly for individual libraries and is then reimbursed from the libraries for the cost of those purchases. Those purchases are not budgeted. The expenditures and invoices to the libraries for reimbursement are netted together in the accounts noted here (beginning with "63__"). The balances shown are a result of timing differences between recognition of cost and recognition of reimbursement.

Grant Opportunity: Programs for School-Aged Youth

Due February 16: grant applications to support virtual programming for school-aged youth in your communities. The full details of the grant opportunity are listed here:

https://www.library.ca.gov/grants/library-services-technology-act/virtual-programming/. Grantees must agree to present at least four virtual programs before August 31, 2021. This new initiative helps libraries purchase technology and develop content to create meaningful and rewarding online programming for school-aged audiences.

All participating libraries will receive \$12,000 for technology needed for virtual programming and training from the California State Library, the California Department of Education, and the California State Parks on connecting with audiences and on virtual programming resources. Grantees will also engage monthly with a cohort of library staff focused on developing skills related to virtual programming for school aged children. Additionally, twenty libraries will receive an additional \$1,000 to support the purchase and implementation of a Learning Management System, and will take part in programming organized by the State Library. Programming will include virtual author visits involving multiple library sites, and a partnership with the federal Institute of Museum and Library Services (IMLS) which will bring the Western Region National Student Poet for a virtual visit to local libraries.

Lunch at the Library and Summer @ Your Library

Lunch at the Library supports public library summer meal programs. If your library jurisdiction is interested in starting a meal program for the first time (or taking library materials or programming to community-based meal sites) or you already host meal programs and need assistance connecting with meal providers or community partners, please contact Trish Garone, Summer @ Your Library Program Manager pgarone@cla-net.org and Kari Johnson, Summer @ Your Library Community Meals and Partnerships Coordinator kjohnson@cla-net.org.

Summer @ Your Library provides California public library staff with program planning resources, training, a set of quality principles and indicators, and a framework and support for presenting outcomes-based summer programs. All California public libraries are eligible to receive:

Cultural Collections Protection Survey

The state is conducting a comprehensive survey of California's archives, galleries, historical societies, libraries, museums, and tribal nations to better understand and protect cultural collections in a time of increased risk and limited resources. The goal is for this survey to be an instrument to educate decision-makers about the value of investing in the state's arts and cultural heritage. The survey was sent out in November. The State Library will be gathering survey data through February 22, 2021.

The existence of these unique collections that help tell California's story is often unknown, particularly at the state level. Many rare and unique materials are at significant risk from natural disasters exacerbated by climate change, inadequate storage facilities, scarce resources, and simple decay over time. The Cultural Collections Protection Survey aims to close this information gap by gathering data on the nature and condition of California's culturally significant assets. It takes 30 minutes to 60 minutes to complete – and the result will be well worth the small time commitment. Registration link to receive the survey: https://www.surveymonkey.com/r/CSLSurveyRegistration Further information is available at: https://www.library.ca.gov/Content/pdf/pressreleases/2020-10-12-CulturalCollectionSurvey.pdf

California Libraries Learn (CALL)

For 2020-21, the California State Library and California Library Association offer a comprehensive, no-cost training portfolio for your library staff members. California Libraries Learn (CALL) offers statewide, 24/7 online professional development. Read the weekly newsletter and visit www.callacademy.org to explore the options.

Please encourage your staff members to create a login to access the many online, self-paced learning opportunities available through CALL Academy. We have recently streamlined the process so that access to PCI webinars and modules are available through the same login.

Upcoming opportunities include courses from Library Journal and Library Juice Academy, a two-session Strategic Planning workshop from ALA and Catherine Hakala-Ausperk, and with the month-long "The Connection" virtual event from the Library Collaborative. Please note there will be support for staff to attend the annual CLA (virtual) conference in May. Contact Bev Schwartzberg for more information.

Library Services and Technology Act (LSTA) Grant Opportunities:

Local and Collaborative Grants, 2021-2022: selected libraries who filed an Intent to Apply form have been invited to submit a full application, due Feb. 24, 2021. The funding period is July 1, 2021-June 30, 2022. For Local and Collaborative grant questions, please contact: LSTA Coordinator, Lynne Oliva, lynne.oliva@library.ca.gov, or Bureau Chief, Library Development Services, Natalie Cole, natalie.cole@library.ca.gov.

Digital Navigator Training

Broadband Access, Adoption, and Training are essential components of digital equity for California's diverse populations. But with the variety of Internet Service Providers and maze of rules for subscribing to low-cost internet, those populations with low economic power and low technical literacy can be left on the wrong side of the digital divide.

Executive Order N-73-20 directs the state library to, in partnership with local libraries, **promote low cost internet subscription plans**. There was a Digital Navigator Webinar, which aims to instruct public libraries on how to help patrons find available offers, navigate signing up, and utilize already existing pathways on the road to internet connectivity. Email chris.durr@library.ca.gov for more information.

JobNow and VetNow

Segmented statistics are available for specific databases for each library system. They are available with a unique log-in that was sent to the person at each library designated at sign-up. Questions about this or anything else related to JobNow/VetNow/LearnNow can be directed to Jody.Thomas@library.ca.gov.

If there is interest in having a personal training for staff on some of the features of these databases, please direct your request to Jody Thomas.

California COVID Diaries

Californians can share the impact the COVID-19 pandemic on their lives through a new community-based archive. The aim of <u>California COVID Diaries</u> is to collect, preserve and make available to the public materials created by Californians, documenting their personal experiences during the COVID-19 pandemic. A <u>Spanish-language version</u> of the submission form is also available. Visit https://coviddiaries.library.ca.gov/ or e-mail coviddiaries.library.ca.gov or e-mailto:
