

There are additional patron permissions I set up as examples in KOHA/tools/patron lists:

The screenshot shows the Koha Tools interface. At the top, there's a navigation bar with links like 'Circulation', 'Patrons', 'Search', 'Cart', and 'More'. Below that is a search bar with the text 'Enter search keywords:' and a 'Search the catalog' button. The main content area is divided into two columns. The left column is titled 'Patrons and circulation' and contains several sub-sections: 'Patron lists' (Manage lists of patrons), 'Patron clubs' (Manage patron clubs), 'Comments' (Moderate patron comments), 'Import patrons' (Import patron data), 'Notices & slips' (Define notices), 'Overdue notice/status triggers' (Set notice/status triggers), 'Patron card creator' (Create printable patron cards), 'Batch patron deletion and anonymization' (Batch delete patrons), 'Batch patron modification' (Modify patrons in batch), 'Batch extend due dates' (Modify the due date checkouts in batch), and 'Tags' (Moderate patron tags). The right column is titled 'Catalog' and contains: 'Batch item deletion' (Delete a batch of items), 'Batch item modification' (Modify items in a batch), 'Batch record deletion' (Delete a batch of bibliographic or authority records), 'Batch record modification' (Modify a batch of bibliographic or authority records), 'Automatic item modifications by age' (Define rules to modify items by age), 'Export data' (Export bibliographic, holdings, and authority records), 'Inventory' (Perform inventory of your catalog), 'Label creator' (Create printable labels and barcodes from catalog data), 'Quick spine label creator' (Enter a barcode to generate a printable spine label), 'Rotating collections' (Manage rotating collections), 'MARC modification templates' (Manage templates for modifying MARC records), 'Stage MARC records for import' (Stage MARC records into the reservoir), 'Staged MARC record management' (Managed staged MARC records), and 'Upload local cover image' (Utility to upload scanned cover images).

The screenshot shows the 'BG permissions' page. At the top, there's a section titled 'Add patrons' with a 'Patron search:' input field and a '+ Enter multiple card numbers' button. Below that are buttons for 'Select all', 'Clear all', 'Remove selected', and 'Merge selected patrons'. The main content is a table with 5 entries. The table has columns for 'Card', 'First name', and 'Surname'. The entries are: BGAcq, BGCatBasic, BGCircsup, BGCirctrain, and BGlocalAdmin. At the bottom, there's a pagination bar showing 'Showing 1 to 5 of 5 entries' and navigation buttons for 'First', 'Previous', 'Next', and 'Last'.

	Card	First name	Surname
<input type="checkbox"/>	BGAcq		BG ACQ
<input type="checkbox"/>	BGCatBasic	Basic	BG cat train
<input type="checkbox"/>	BGCircsup		BG circ sup
<input type="checkbox"/>	BGCirctrain	Basic	BG circ train
<input type="checkbox"/>	BGlocalAdmin		BG local admin
